

DSCSA Service Desk

Investigator™

OneScan®

PROFILE

LSPediA™ implements serialization for pharma companies meeting the FDA's Drug Supply Chain Security (DSCSA) requirements.

Challenged by DSCSA's complexity and heavy workload, the best run Pharma companies leverage LSPediA's people, process, and technology to do more, hire less, and achieve compliance. From small startups to large Fortune 100 companies, LSPediA's software and staffing services bring far reaching benefits to operations, supply chain, and trade.

PRODUCTS

DSCSA Service Desk

STAFFING FOR HARD TO HIRE POSITIONS

Don't have staffing for DSCSA? Outsource it to LSPediA. Your LSPediA resident engineer will handle anything and everything DSCSA including shipment monitoring, trading partner onboarding, EPCIS/ASN data exchange, and exceptions management. You meet with your resident engineer weekly for status update and reporting.

Investigator™

EXCEPTIONS MANAGEMENT

Investigator is a SaaS solution that enables pharmaceutical trading partners to solve common issues faster, better, and smarter. It performs real-time exception management for EPCIS and VRS, automates email notification, and facilitates issue resolution to bring products to market and remove supply chain interruptions.

OneScan®

COMPREHENSIVE DSCSA SOLUTION

OneScan is the Pharma industry's go-to solution for DSCSA compliance enabling effective serialization in the 4-walls, and a well-managed supply chain outside of the 4-walls. Consisted of multiple core modules covering ASN, EPCIS, VRS, Edge, Portal, and more, OneScan® offers scalability, flexibility, and rapid issue resolution across multiple trading partners. It turns complex DSCSA requirements into efficient workflows. OneScan will help your company keep products moving in the supply chain for the wellbeing of every patient.

“ACI Healthcare

JAY MADDEN, DIRECTOR NATIONAL ACCOUNTS
As a small company, we don't have time or expertise to sort out EPCIS errors. I am happy that LSPediA is in our corner so they can handle everything DSCSA and we can focus on bringing products into the market.

“AmerisourceBergen

MATT SAMPLE, SVP MANUFACTURER OPERATIONS
LSPediA allows us to work smarter, manage technical issues, and negative exceptions better, and not find it necessary to hire FTEs and throw other resources at the problem.
