

OneScan® Pharmacy Solution

OneScan® Pharmacy Solution is a turnkey DSCSA Serialization solution for pharmacies, including national chains, regional chains, and independents. OneScan's Pharmacy Mobile App enables pharmacies to meet the following FDA DSCSA compliance requirements on a budget.

- EPCIS data exchange
- Verification Router Service
- Scan 2D barcode to receive and disposition

OneScan® Pharmacy App enables pharmacists and technicians to:

- Maintain current workflows without adding new processes
- Receive EPCIS data from primary and secondary suppliers
- Scan-in to receive shipments via smartphone camera
- Manage store inventory, expiry, and disposition at serial level
- Process Rx returns, verifications, and recalls
- Meet requirements for both the FDA's DSCSA and State Boards of Pharmacy

ONESCAN® PHARMACY APP FEATURES AND CAPABILITIES

Access the OneScan® Pharmacy App from anywhere, 24/7/365. Pharmacists and technicians can easily use the following features and capabilities on any mobile device or smartphone:

- Receive inbound EPCIS data files
- Receiving Rx matching to EPCIS data
- Verify suspect and illegitimate Rx
- 3PL EPCIS data exchange
- Scan via phone camera
- Alert send of receipt discrepancies
- 3911 reporting to the FDA
- Customer EPCIS data exchange

Serialize your pharmacy and meet DSCSA compliance with OneScan®. Pricing starts at \$20/user/month. To request a demo and a quote, email DSCSA@lspedia.com or call +1 (248) 419-9418.
